Unikat

2019 Crafted in  
Flora Miranda's  
studio in Antwerp.

€ 28,360.00 incl. VAT

### The Garment

2500 discs are moulded from translucent silicone with black circles of polyester foil into reflective discs. We wrote an algorithm to create the precisely calculated position of each disc, hand-stitched to a mesh that is later attached to the double lining. The discs form a dazzling kinetic dress, lined with black cotton. Translucent beads sewn along with the discs provide more structure. The undergarment is held in position by a set of plastic and metallic boning. This piece is fastened at the back with a zipper, hidden under a mesh flap.

Fits a EU size 34-38.

### Wash & Care

The dress is best stored on a doll or in a box.  
Washing not advised, the material can be wiped with water and soap. The dress is shipped in a custom made wooden box.

Shipping to anywhere in the world.

## Time Warp

Unikat

2017 Crafted in  
Flora Miranda's  
studio in Antwerp.

€ 51,400.00 incl. VAT

### The Garment

Various plastic foils are cut in stripes and folded into a zig-zag, each position and height calculated precisely beforehand.

The left side of each zig-zag is stuck with black foil, the right side with holographic foil. By this a lively optical texture is created that especially comes to livy during movement. The zigzag is manually embroidered onto a cotton base dress, which is lined in black. The dress is closed with a zipper going around the body in a spiral.

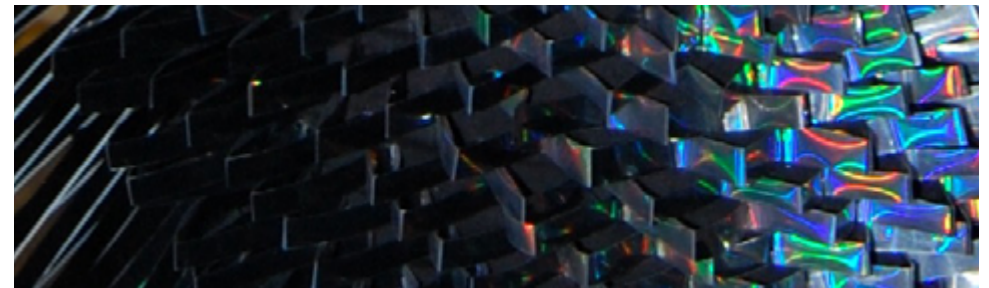

Fits a EU size 34-36.

### Wash & Care

To store the dress it can be simply laid flat in a box or hung on a hanger. Washing not advised, can be dusted. The dress is shipped in a custom made wooden box.

2017 Crafted in  
Flora Miranda's

€ 26,800.00 incl. VAT

### The Garment

The 3D weaving is created by the fusion of machine and hand work. Singular vaporised threads are interconnected by handpainted silicone strips. Each distance is pre-calculated in order to let the material drape in surprising patterns. The weaving is punctually attached to a fine nude elastic mesh dress.

For a wearable version we suggest to create a tailored bodice dress as a base material, instead of the transparent version.

Custom made for all sizes.  
The original dress fits EU size 34-36.

### Wash & Care

## Crinkle

Unikat

2019 Crafted in  
Flora Miranda's  
studio in Antwerp.

€ 14,800.00 incl. VAT

### The Garment

A collaboration with Esther Stocker. Human perception is hacked by shifting the forms of a most basic graphic grid of black and white.

The asymmetrical, sculptural crinkle shape is made of cotton. The material is custom developed and woven in the Netherlands (70% Cotton, 30% Polyester). The grids are woven as tunnels, which allows metal boning to be inserted and organically crunch and drape the material in a floating volume. The piece features an underconstruction from black cotton to support the upper volume, with a zipper in the back.

The dress fits EU size 36-38.

### Wash & Care

Ideally stored in a box. The material can be dry cleaned. The dress is shipped in a custom made wooden box.

## Jaakko Eino Kalevi Lyrics

Knitted in Belgium
